
Fail-closed rule

Unknown states fail closed rather than defaulting to a classification. No partial, recovery, public, harness, readiness or package-validation evidence becomes an original-contract full-suite score by relabelling; no cross-suite average is formed.

All 14 lanes, ledger of 2026-09-19 updated 2026-09-27 (one state per lane, as in the Chapter 8 lane grid):
4 complete · **6** replacement scope scored · **1** partial · **3** blocked.
